

Listen to the song and complete the lyrics.

There are three kinds of rocks and this is how they're  
named: , , Igneous.

There are three kinds of rocks and this is how they're  
named: , , Igneous.

We will we will rock you!  
We will we will rock you!

is hot it comes from underground  
Hot throw it all around.  
Lava gets and turns into called Igneous.

We will we will rock you!  
We will we will rock you!

and wears down rock.  
Years and years of  
Rivers take pieces out to where the make layers on the  
floor.  
build up over many years.  
Layers turn and then one day rocks are  
made.

We will we will rock you!  
We will we will rock you!

Rocks go down into the Earth's  
and change them again  
rocks are made.
