

Read and listen to Ali talk about camping.

Hi! My name is Ali. I usually go camping in the desert with my family. We go in the winter.

When you go camping, you need light clothes in the day because it is hot. But you need warm clothes at night because it is cold.

You need a compass and a map if you go far into the desert, so that you don't get lost.

There are also dangerous animals in the desert, like scorpions, spiders, and bees. You need bug spray, so they don't bite you!

And of course, don't forget your tent and a lot of water!
