

People and the environment

1. Match the environments to the descriptions on the right. Draw lines.

farmland

a man-made urban environment

deserts, oasis and seashore

b man-made rural environment

towns and cities

c natural environment

2. The things listed below are parts of different environments. Some are seen only in urban environments. Others are seen in rural or natural environments. Some may be seen in all three types of environment.

Complete the table using the words in the box.

tall buildings highways rivers crops air wild animals villages
trees rocks shops sunlight cattle

Artificial urban environment	Artificial rural environment	Natural environment
