

## Grade 3 : Lesson 3

### Divide by 6 and 7

Find each quotient :

$18 \div 6 = \underline{\quad}$

$24 \div 6 = \underline{\quad}$

$30 \div 6 = \underline{\quad}$

$36 \div 6 = \underline{\quad}$

$66 \div 6 = \underline{\quad}$

---

There are 48 candies that will be shared between 6 friends.

How many candies will each friend receive if they share

them equally?
