Sequencing: Safety Precautions for Natural Disasters

Read the passage below. Complete the table below by dragging the precautions into the correct column on the table below.

Natural disasters are forces of nature. General suggested procedures for natural disasters such as hurricanes, floods or tornados are:

- Remain indoors
- Do not touch electrical outlets, telephones with cords or plumbing.
- Stock up on canned items and medical supplies and water.
- Only enter disaster area if necessary.
- If outdoors, get to a safe area.
- Stay away from windows.
- Secure your property (batten up or put up shutters).
- Do not touch fallen or damaged electrical wires.
- Store or properly secure all loose objects.
- Identify the nearest available shelter.
