Graphs

EXERCISES Solve. Use the picture graph.

1. How many people went to the playground in July?
2. In what month was attendance the least?
3. In what months did more than 400 people attend?

Solve. Use the line graph.

4. How many people were in the bicycle club in April?
5. How many members were in the club in October?
6. When did the membership go over 20?

Use the information from the chart to determine how much must be added for shipping and handling.

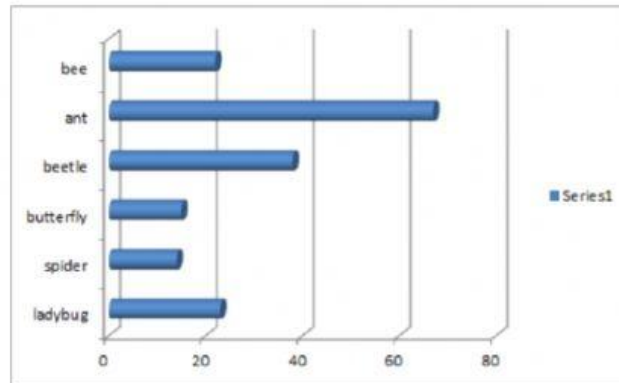

- | | |
|-------------|-------------|
| 7. \$18 | 8. \$9.50 |
| 9. \$27.33 | 10. \$25 |
| 11. \$62.75 | 12. \$12.18 |

PLEASE INCLUDE FOR SHIPPING AND HANDLING

Orders up to \$10.00.....	add \$1.95
Orders from \$10.01 to \$15.00	add \$2.95
Orders from \$15.01 to \$25.00	add \$3.65
Orders from \$25.01 to \$35.00	add \$3.95
Orders from \$35.01 to \$50.00	add \$4.65
Orders over \$50.00.....	add \$4.95

This bar chart below shows insects found in a garden. Study the graph carefully and fill in each blank with the correct answer.

Insects Found in Garden

1. There are more _____ than any other insects found in the garden.
