

First Term Exams: Maths**Part 1: Zero**

Write a number in each blank space so that the sum is right.

1) $6 - 0 = \underline{\hspace{2cm}}$ 2) $8 + 0 = \underline{\hspace{2cm}}$

3) $9 - 9 = \underline{\hspace{2cm}}$ 4) $5 - \underline{\hspace{2cm}} = 0$

5) $\underline{\hspace{2cm}} + 3 = 3$ 6) $\underline{\hspace{2cm}} - 7 = 0$

(6 Marks)

Part 2: Addition and Subtraction

Solve the following questions:

1) $7 + 2 = \underline{\hspace{2cm}}$ 2) $9 - 6 = \underline{\hspace{2cm}}$

3) $5 - 4 = \underline{\hspace{2cm}}$ 4) $8 + 3 = \underline{\hspace{2cm}}$

5) $6 + 3 = \underline{\hspace{2cm}}$ 6) $8 - 3 = \underline{\hspace{2cm}}$

7) $7 - 4 = \underline{\hspace{2cm}}$ 8) $9 - 5 = \underline{\hspace{2cm}}$

9) $1 + 3 + 6 = \underline{\hspace{2cm}}$ 10) $5 + 2 + 3 = \underline{\hspace{2cm}}$

(10 Marks)

Part 3: Place Value

Write the following numbers as figures (not words). The first one is done for you.

Example: Two tens and five ones: 25

1. One ten and one one: _____
2. Four tens and two ones: _____
3. Two tens and nine ones: _____
4. Six tens and three ones: _____
5. Nine tens and nine ones: _____

(5 marks)

Part 4: Comparing Lengths

Write the numbers 1, 2, and 3 in the box next to each object to order the objects in each row from **shortest** to **longest**.

	<input type="text"/>
	<input type="text"/>
	<input type="text"/>
<hr/>	
	<input type="text"/>
	<input type="text"/>
	<input type="text"/>
<hr/>	
	<input type="text"/>
	<input type="text"/>
	<input type="text"/>
<hr/>	

(3 Marks)

Part 5: 3D Shapes

5a: 2D and 3D shapes

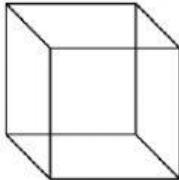

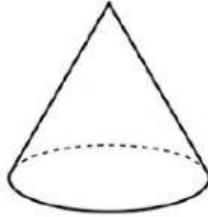

Draw a line to match the 2d shape to the correct 3d shape.

(6 marks)

5b Names of 3D shapes

Circle the correct words.

	cone / cylinder		cube / pyramid
	cone / pyramid		pyramid / prism
	cylinder / sphere		pyramid / prism

(6 Marks)
