

ACTIVIDAD DE REFUERZO

LOS GASES NOBLES

1. Colocar en la tabla periódica los gases nobles

A blank periodic table grid. It consists of 18 columns and 7 rows. The first two columns are on the left, followed by a gap. Then there are 10 columns in the middle, followed by another gap. Finally, there are 6 columns on the right. The grid is designed to accommodate the standard periodic table layout, including the noble gas groups and the lanthanide and actinide series.

2. Los gases nobles corresponden a la familia
