

USL Test Review Assignment

A. Discount

1. CAVE SHEPHERD HAS DISCOUNTED THE FOLLOWING ITEMS BY 35%.
 - a. COMPLETE THE TABLE BY FIRST CALCULATING HOW MUCH DISCOUNT IS RECEIVED AND THEN CALCULATING THE NEW SALE PRICE.

Item	Old Price	Discount (\$)	Sale Price (\$)
Shoes	\$174.00		
Sunglasses	\$484.90		
Perfume	\$295.75		
Makeup	\$187.77		
Watch	\$595.99		

B. Frequency Tables

1. READ THE INFORMATION PROVIDED, COMPLETE THE FOLLOWING TABLE AND ANSWER THE QUESTIONS BELOW.

These are the number of items sold in a store each day.

9	5	5	3	9
5	7	1	8	4
7	8	6	8	4
2	6	3	7	9

Complete the tally chart below by dragging the correct box into the tally column and then complete the table by filling in the frequency.

+		
---	--	--

Cookies Sold	Tally	Frequency
0-3		
4-7		
8-11		

Use the information above to answer the questions below.

1. What were the MOST items sold in a day? _____ items
2. What were the LEAST items sold in a day? _____ items
3. How many days did they sell MORE THAN 7 items? _____ days
4. How many days did they sell LESS THAN 7 items? _____ days
