- 7 We'll all live longer if we _____ (eat) healthy food.
- 8 You _____ (not pass) your exams if you don't work hard.

Reading

6 Read the text and choose the correct answers.

What will you do in the future?

Last week we asked you about your plans for the future. Thank you to everyone who wrote to tell us about them. Here are some of your replies.

I'm very interested in the environment and my dream is to be an organic farmer.

I'll grow natural fruit and vegetables. I won't use chemicals on my plants and I definitely won't have any genetically modified crops. I'll keep some animals, too, so that I can produce organic milk, meat and eggs.

Hayley

I don't think I'll spend my life trying to be rich or famous. When I leave school, I'll train to do something that will help other people – a health worker, perhaps, or a charity worker. If it's important to go to university to qualify for a job, I'll do that, but I won't go to university if a qualification isn't necessary. I hope I'll change the world in a small way.

Nicholas

My ambition is to be a science teacher in a secondary school. I'm sure I'll be a good teacher because I'm good at explaining things and I am very patient. I think science is the most important subject because it helps us to understand why things happen and how things work.

Grace

- 1 Hayley is very interested in ____.
a) animals b) the environment
- 2 Hayley will grow ____ fruit and vegetables.
a) natural b) genetically modified
- 3 Nicholas ____ try to be rich and famous.
a) will b) won't
- 4 Nicholas will only go to university if it is ____.
a) interesting b) necessary
- 5 Grace wants to teach in a ____ school.
a) primary b) secondary

7 Read the text again and answer the questions.

- 1 What won't Grace use on her plants?

- 2 What will Grace produce as well as organic fruit and vegetables?

- 3 Which two jobs is Nicholas interested in doing?

- 4 What does Nicholas hope he will do?

- 5 What qualities does Grace have that will make her a good teacher?
