## CHAPTER 1 : INTRODUCTION TO CHEMISTRY

Instruction : Fill in the blank with the correct word.

- Chemistry is a field of science that studies the structures, \_\_\_\_\_, compositions and interactions between \_\_\_\_\_.
- There are a lot of chemicals commonly used in our daily life such as:
  - \_\_\_\_\_ to preserve food and has sour taste
  - \_\_\_\_\_ is an antiseptic to kill bacteria
  - \_\_\_\_\_ as a painkiller to treat aches and pain
  - \_\_\_\_\_ used to provide additional nutrients to the plants
  - \_\_\_\_\_ is a powerful cleanser to break up dirt in clothing
- Steps in scientific method:
 

a) Making _____	g) Plan experiment
b) Making inference	h) Collect data
c) Identify _____	i) _____ data
d) Making _____	j) Making _____
e) Identify variable	k) Prepare _____
f) Control variable	
- Name the apparatus below:
