

# Profit - Loss

Complete the table below with the correct answer of either profit or loss!

**An example has been given to you in the table for guidance.**

| No.     | Cost Price               | Sell Price        | Profit/ Loss | Amount (without IDR)<br><u>For each</u> |
|---------|--------------------------|-------------------|--------------|-----------------------------------------|
| Example | IDR 25.000               | IDR 20.000        | Loss         | 5.000                                   |
| 1.      | IDR 1.200.000            | IDR 1.250.000     |              |                                         |
| 2.      | IDR 60.000 (for 1 dozen) | IDR 4.800 (each)  |              |                                         |
| 3.      | IDR 90.000 for 1 kg      | IDR 100 per gram  |              |                                         |
| 4.      | IDR 2.520.000            | IDR 2.500.000     |              |                                         |
| 5.      | IDR 85.000               | IDR 90.000        |              |                                         |
| 6.      | IDR 325.000              | IDR 320.000       |              |                                         |
| 7.      | IDR 56.000               | IDR 66.000        |              |                                         |
| 8.      | IDR 24.000               | IDR 32.000        |              |                                         |
| 9.      | IDR 120.000 (total of 6) | IDR 18.500 (each) |              |                                         |
| 10.     | IDR 50.000               | IDR 45.000        |              |                                         |
