

On your Own

A diagram illustrating the division of 631 by 4 using base ten blocks. The dividend 631 is represented by 6 hundreds blocks, 3 tens blocks, and 1 ones block. The divisor 4 is shown to the left of the dividend. The quotient is represented by three rows of blocks: the first row has 1 hundred, 1 ten, and 1 one block; the second row has 1 ten and 3 one blocks; the third row has 1 ten and 1 one block. Horizontal lines separate the three rows of the quotient. The remainder is 3, represented by 3 one blocks at the bottom.

$$\begin{array}{r} \square\square\square \\ 4 \overline{) 631} \\ \square \\ \hline \square\square \\ \square\square \\ \hline \square\square\square \\ \square\square \\ \hline \square\square \end{array}$$
