SENIOR FIVE EXAM

Paper 1 (L)

Time allowed: 2 hs

SECTION A: Reading Comprehension

Read the passage and mark the statements below T (true) or F (false):

Rafting the Grand Canyon

1) There are few experiences in the world as amazing as rafting the Grand Canyon. Take it from someone who has done it half-a-dozen times, mostly as a trip leader for non-commercial trips. My first trip was a private trip for 30 days. By the time you get off the river you are a different person. That is no longer allowed by the National Park Service to enable more people to experience the Canyon, but a trip of any length is something you will never forget.

2) What Makes It Great

Astounding sights at every turn. — I kid you not. Every turn in the Canyon leads to the potential for an astonishing sight, from a sheer cliff ascending straight up from the river to a bighorn sheep down by the river.

The freedom to forget the world at large. — When you are down in the bottom of the Grand Canyon the view makes you forget what is happening in the outside world in a way that is almost magical.

Some of the biggest rapids in North America. — Running a really big rapid, as you do many times in The Canyon, is a unique experience. If you are traveling in oar-powered rafts the waves may be bigger than your boat. That's something worth experiencing.

3) What Not To Miss

The number of places not to miss on any Canyon trip are legion, but here are a few of the simply "can't miss" sights:

Shinumo Wash/Silver Grotto - One of your first opportunities to thoroughly understand that you are in a truly magical place.

Vasey's Paradise - You can't really miss this, since this spring cascades down a cliff into the river.

Little Colorado - Ranging from an amazing blue-green color to a totally mud color depending on whether rain has fallen recently, the Little Colorado in any condition is a mecca of mudbaths.

Matkatamiba - Close-in to the river is this magical gem of a side canyon that is a wonder of erosion.

4) Ways To Do It

There are two basic ways to experience The Canyon:

Motor Rig — Motor rigs tend to be large boats guided by one guide and an assistant. Motor rigs can run about 218 miles in less than a week. There isn't as much time to soak up the wonders of The Canyon, but it can be easier to fit a trip like this into busy schedules.

Oar Boat — Oar boats are smaller and also take longer to run The Canyon. Oar trips will typically take two weeks.
