

PART - II BIOLOGY LIVE WORKSHEET BS 6

1. Dispersal of calotropis is through ()
 - 1) Water
 - 2) Animals
 - 3) Wind
 - 4) Humans
2. These seeds are dispersed by animals. ()
 - 1) Fleshy fruits
 - 2) Coconut
 - 3) Neem
 - 4) Balsam
3. Neem seed is dispersed to other places by ()
 - 1) Animals
 - 2) Human beings
 - 3) Birds
 - 4) Water
4. Dispersal of seeds by bursting of fruit happens in ()
 - 1) Sugar cane
 - 2) Coconut
 - 3) Lotus
 - 4) Ladies finger
5. Which of these seeds are Dispersal by the wind ()
 - 1) Coconut
 - 2) Calotropis
 - 3) Lotus
 - 4) Pedalium (palleru)
6. The seed that has wing - like structures dispersed by wind ()
 - 1) Calotropis
 - 2) Neem
 - 3) Papaya
 - 4) Maple
7. Why do seeds disperse? ()

Choose the incorrect statement .

 - 1) Seed dispersal is essential for the survival of plants
 - 2) They (plants) get sufficient places to grow .
 - 3) They get sufficient sunlight and water .
 - 4) Most people eat sprouts.

8. Dispersal by bursting of these fruits is done ()

- | | |
|------------------|------------|
| 1) Neem | 2) Coconut |
| 3) Fleshy fruits | 4) Bhendi |

9. People transferred these seeds across the globe ()

- | | |
|-------------|--------------|
| 1) Coconut | 2) Neem |
| 3) Soap nut | 4) Sugarcane |

10. Choose the correct matching answer.

- | | | |
|-------------------|-----|--------------|
| i) Coconut fruits | () | a) By wind |
| ii) Tomatoes | () | b) By water |
| iii) Milkweed | () | c) By animal |
| iv) Grass seeds | () | d) By bird |
| v) Neem seeds | () | e) By man |

11. This develops as fruit ()

- | | |
|-----------|-----------|
| 1) Ovary | 2) Ovule |
| 3) Petals | 4) Flower |

12. Ovules develop into ()

- | | |
|-----------|----------|
| 1) Fruit | 2) Seed |
| 3) Flower | 4) Plant |

13. Dispersal of seed is done by water ()

- | | |
|------------|-------------|
| 1) Coconut | 2) Soap nut |
| 3) Neem | 4) Milkweed |

14. When seeds germinate they give birth to _____ ()

- | | |
|-----------|-----------------|
| 1) Seeds | 2) New Plants |
| 3) Fruits | 4) Grass Plants |

15. Which of these seeds are Dispersal by the man ()

- | | |
|--------------|------------------|
| 1) Tomatoes | 2) wheat |
| 3) Sugarcane | 4) All the above |

16. Which of these seeds are Dispersal by the bird ()

- | | |
|----------------|---------------|
| 1) Neem fruits | 2) Calotropis |
| 3) Lotus | 4) Pedalium |
