Initial diagnosis: anxiety disorder. Patient was reassured and discharged home with follow-up appointment in 2 weeks.	
2	Jane Smith	Medical	Open	2023-10-27	11:00	Room 102	Jane Smith, 32 years old, female, presented with abdominal pain and nausea. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: mild tenderness in the right upper quadrant, no rebound tenderness. Labs: WBC 12,000, Hgb 12, Plt 250. Initial diagnosis: cholecystitis. Patient was admitted to the hospital and scheduled for surgery.	Jane Smith, 32 years old, female, presented with abdominal pain and nausea. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: mild tenderness in the right upper quadrant, no rebound tenderness. Labs: WBC 12,000, Hgb 12, Plt 250. Initial diagnosis: cholecystitis. Patient was admitted to the hospital and scheduled for surgery.	
3	Michael Brown	Medical	Open	2023-10-27	11:30	Room 103	Michael Brown, 60 years old, male, presented with a fall and head injury. Vital signs: BP 130/90, HR 100, RR 20, SpO2 98% on room air. Physical exam: mild swelling on the forehead, no lacerations. CT scan: no intracranial hemorrhage. Initial diagnosis: concussion. Patient was admitted to the hospital and scheduled for surgery.	Michael Brown, 60 years old, male, presented with a fall and head injury. Vital signs: BP 130/90, HR 100, RR 20, SpO2 98% on room air. Physical exam: mild swelling on the forehead, no lacerations. CT scan: no intracranial hemorrhage. Initial diagnosis: concussion. Patient was admitted to the hospital and scheduled for surgery.	
4	Sarah Johnson	Medical	Open	2023-10-27	12:00	Room 104	Sarah Johnson, 28 years old, female, presented with a laceration on her forearm. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 2 cm laceration on the volar aspect of the left forearm. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	Sarah Johnson, 28 years old, female, presented with a laceration on her forearm. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 2 cm laceration on the volar aspect of the left forearm. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	
5	David Wilson	Medical	Open	2023-10-27	12:30	Room 105	David Wilson, 55 years old, male, presented with a fall and hip injury. Vital signs: BP 120/80, HR 95, RR 20, SpO2 98% on room air. Physical exam: mild tenderness in the right hip, no swelling. X-ray: fracture of the right femoral neck. Initial diagnosis: hip fracture. Patient was admitted to the hospital and scheduled for surgery.	David Wilson, 55 years old, male, presented with a fall and hip injury. Vital signs: BP 120/80, HR 95, RR 20, SpO2 98% on room air. Physical exam: mild tenderness in the right hip, no swelling. X-ray: fracture of the right femoral neck. Initial diagnosis: hip fracture. Patient was admitted to the hospital and scheduled for surgery.	
6	Emily Davis	Medical	Open	2023-10-27	13:00	Room 106	Emily Davis, 35 years old, female, presented with a laceration on her leg. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 3 cm laceration on the medial aspect of the right leg. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	Emily Davis, 35 years old, female, presented with a laceration on her leg. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 3 cm laceration on the medial aspect of the right leg. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	
7	Robert Miller	Medical	Open	2023-10-27	13:30	Room 107	Robert Miller, 70 years old, male, presented with a fall and wrist injury. Vital signs: BP 130/90, HR 100, RR 20, SpO2 98% on room air. Physical exam: mild swelling on the wrist, no lacerations. X-ray: fracture of the distal radius. Initial diagnosis: wrist fracture. Patient was admitted to the hospital and scheduled for surgery.	Robert Miller, 70 years old, male, presented with a fall and wrist injury. Vital signs: BP 130/90, HR 100, RR 20, SpO2 98% on room air. Physical exam: mild swelling on the wrist, no lacerations. X-ray: fracture of the distal radius. Initial diagnosis: wrist fracture. Patient was admitted to the hospital and scheduled for surgery.	
8	Lisa Anderson	Medical	Open	2023-10-27	14:00	Room 108	Lisa Anderson, 40 years old, female, presented with a laceration on her arm. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 2 cm laceration on the volar aspect of the right arm. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	Lisa Anderson, 40 years old, female, presented with a laceration on her arm. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 2 cm laceration on the volar aspect of the right arm. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	
9	James Taylor	Medical	Open	2023-10-27	14:30	Room 109	James Taylor, 65 years old, male, presented with a fall and ankle injury. Vital signs: BP 120/80, HR 95, RR 20, SpO2 98% on room air. Physical exam: mild swelling on the ankle, no lacerations. X-ray: fracture of the distal tibia. Initial diagnosis: ankle fracture. Patient was admitted to the hospital and scheduled for surgery.	James Taylor, 65 years old, male, presented with a fall and ankle injury. Vital signs: BP 120/80, HR 95, RR 20, SpO2 98% on room air. Physical exam: mild swelling on the ankle, no lacerations. X-ray: fracture of the distal tibia. Initial diagnosis: ankle fracture. Patient was admitted to the hospital and scheduled for surgery.	
10	Michelle White	Medical	Open	2023-10-27	15:00	Room 110	Michelle White, 30 years old, female, presented with a laceration on her leg. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 2 cm laceration on the medial aspect of the left leg. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	Michelle White, 30 years old, female, presented with a laceration on her leg. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 2 cm laceration on the medial aspect of the left leg. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	
11	Christopher Lee	Medical	Open	2023-10-27	15:30	Room 111	Christopher Lee, 50 years old, male, presented with a fall and shoulder injury. Vital signs: BP 120/80, HR 95, RR 20, SpO2 98% on room air. Physical exam: mild swelling on the shoulder, no lacerations. X-ray: fracture of the proximal humerus. Initial diagnosis: shoulder fracture. Patient was admitted to the hospital and scheduled for surgery.	Christopher Lee, 50 years old, male, presented with a fall and shoulder injury. Vital signs: BP 120/80, HR 95, RR 20, SpO2 98% on room air. Physical exam: mild swelling on the shoulder, no lacerations. X-ray: fracture of the proximal humerus. Initial diagnosis: shoulder fracture. Patient was admitted to the hospital and scheduled for surgery.	
12	Amanda Clark	Medical	Open	2023-10-27	16:00	Room 112	Amanda Clark, 25 years old, female, presented with a laceration on her arm. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 2 cm laceration on the volar aspect of the right arm. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	Amanda Clark, 25 years old, female, presented with a laceration on her arm. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 2 cm laceration on the volar aspect of the right arm. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	
13	Kevin Hall	Medical	Open	2023-10-27	16:30	Room 113	Kevin Hall, 60 years old, male, presented with a fall and hip injury. Vital signs: BP 130/90, HR 100, RR 20, SpO2 98% on room air. Physical exam: mild tenderness in the right hip, no swelling. X-ray: fracture of the right femoral neck. Initial diagnosis: hip fracture. Patient was admitted to the hospital and scheduled for surgery.	Kevin Hall, 60 years old, male, presented with a fall and hip injury. Vital signs: BP 130/90, HR 100, RR 20, SpO2 98% on room air. Physical exam: mild tenderness in the right hip, no swelling. X-ray: fracture of the right femoral neck. Initial diagnosis: hip fracture. Patient was admitted to the hospital and scheduled for surgery.	
14	Stephanie King	Medical	Open	2023-10-27	17:00	Room 114	Stephanie King, 35 years old, female, presented with a laceration on her leg. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 2 cm laceration on the medial aspect of the right leg. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	Stephanie King, 35 years old, female, presented with a laceration on her leg. Vital signs: BP 110/70, HR 80, RR 18, SpO2 98% on room air. Physical exam: 2 cm laceration on the medial aspect of the right leg. Initial diagnosis: laceration. Patient was admitted to the hospital and scheduled for surgery.	
15	Gregory Scott	Medical	Open	2023-10-27	17:30	Room 115	Gregory Scott, 55 years old, male, presented with a fall and wrist injury. Vital signs: BP 120/80, HR 95, RR 20, SpO2 98% on room air. Physical exam: mild swelling on the wrist, no lacerations. X-ray: fracture of the distal radius. Initial diagnosis: wrist fracture. Patient was admitted to the hospital and scheduled for surgery.	Gregory Scott, 55 years old, male, presented with a fall and wrist injury. Vital signs: BP 120/80, HR 95, RR 20, SpO2 98% on room air. Physical exam: mild swelling on the wrist, no lacerations. X-ray: fracture of the distal radius. Initial diagnosis: wrist fracture. Patient was admitted to the hospital and scheduled for surgery.	

II) Tipea los hiragana de la columna de "ㇿ".

[illegible][illegible][illegible][illegible][illegible]

III) Busca los hiragana de las letras que se te indican debajo y completa ambas sopas de letras. Luego, tipea la palabra que se forma y pon su significado en español.
