

Fill in the missing numbers.

A winding path made of circles for a number sequence puzzle. The path starts at the bottom left, goes up and to the right, then down and to the right, then up and to the right again. There are 14 circles in total. The numbers 1, 3, 5, 6, 8, 10, 12, and 14 are already placed in the circles. The first circle contains the number 1. The third circle contains the number 3. The fifth circle contains the number 5. The sixth circle contains the number 6. The seventh circle contains the number 8. The ninth circle contains the number 10. The eleventh circle contains the number 12. The thirteenth circle contains the number 14.
