

## Vocabulary Project 1, Lesson 5 – a PLACES

| Listen and practice                                                                 | English                                    | Czech                     |
|-------------------------------------------------------------------------------------|--------------------------------------------|---------------------------|
|    | places ( <i>pleisis</i> )                  | místa                     |
|    | my room                                    | můj pokoj                 |
|    | prepositions ( <i>prepozišns</i> )         | předložky                 |
|    | behind ( <i>bihájnd</i> )                  | za                        |
|    | between ( <i>bitvín</i> )                  | mezi                      |
|    | box                                        | krabice                   |
|    | chair ( <i>čér</i> )                       | židle                     |
|    | chest of drawers ( <i>čest of droers</i> ) | komoda                    |
|    | desk                                       | psací stůl                |
|    | in                                         | v                         |
|  | in front of                                | před (jen přeložka místa) |
|  | next to ( <i>next tu</i> )                 | vedle                     |
|  | on                                         | na                        |
|  | opposite                                   | naproti                   |
|  | under ( <i>andr</i> )                      | pod                       |
|  | It's my turn. ( <i>its maj trn.</i> )      | Jsem na řadě.             |
|  | It's your turn.                            | Jsi na řadě.              |
|  | mirror                                     | zrcadlo                   |
|  | poster                                     | plakát                    |
|  | rug ( <i>rag</i> )                         | kobereček                 |
|  | teddy bear                                 | plyšový medvěd            |
|  | wardrobe ( <i>wordroub</i> )               | skříň                     |

We know all these prepositions!

Match the right box to each preposition:

|                                                                                   |                                                                                   |                                                                                    |                                                                                     |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| <div></div>                                                                       | <div></div>                                                                       | <div></div>                                                                        | <div></div>                                                                         |
|  |  |  |  |
| IN                                                                                | ON                                                                                | UNDER                                                                              | NEXT TO                                                                             |
|  |  |  |                                                                                     |
