

Step other and get away from here

But I'll find some other to be ouh yeah, ouh no

Step other every move can be

But your heart is..... of stone, I know, I know, o know

No color view from floor

Someday I will from here

I can't hold it anymore, here (yeah)

I hope that stars will light my way

Can't hold it anymore!

Someday I'll find some life,

Beyond my mind so far away

I know for that you'll be here

To make me that I'm alive

I'm broken, broken, brokenagain
