Q2. Read the short story then choose the correct answers.

One beautiful morning, Fatima and her family went to the farm. Fatima wanted to see the animals and their babies. The farm had many beautiful plants and flowers. Fatima saw many birds there. Her dad put the farm animals in their shelters to protect them. However, Fatima noticed the environment was not clean. There was garbage everywhere. Even the road was not clean. She told her mom that she wanted to clean the place.

She started by gathering all the garbage and plastic bottles and throw them in separate garbage bins. She wanted to recycle the plastic.

When she finished cleaning, she sat with her mom and dad and told them what she did. They felt very happy.

But then she said,

"I wish we could stop using vehicles that produce carbon dioxide." and that was her next environmental project.

1. What did Fatima want to see at the farm?

- Birds
- Plants and flowers
- Animals and their babies.

2. What did Fatima do when she noticed the environment was not clean?

- She started cleaning.
- She told her mom and dad only.
- She left the farm.

3. What was Fatima' s next environmental project?

- Stopping the use of vehicles that produce CO2.
- Planting more flowers.
- Cleaning the farm.

4. Where did Fatima' s dad put the farm animals.

- He put them in the house with them.
- He put them in their shelters to protect them.
- He put them outside in the farm.

5. How did Fatima' s mom and dad feel when she told them what she did?

- They were happy.
- They were sad.
- They were angry.
