#### TOM'S DAILY MORNING ROUTINE

I live with a friend in the centre of London in a small flat. I usually wake up at 6 o'clock in the morning and go for a quick run in the park. Then, it's home for a light breakfast. I always have the same thing: cereal, milk, toast and two big cups of black coffee. I like cream but it's not good for me, so I never have any. I have a hot bath and then quickly read the newspaper. At 7.30 I leave for work. It's not far so I hardly ever drive. I walk there in about ten minutes. I'm always first in the office, so I have time to relax and think. At 10 o'clock, I do some yoga for about ten minutes. It helps me relax.

I love my job. I'm practical and I like the fact that I can help people with their problems. Most patients are very friendly and the work is always interesting. I don't mind the uniform. The only thing I don't like is working late at night.

(7)

I really like my work. It is the perfect job for me. I enjoy teaching people. It's fantastic to see the progress you can make in just one week. I am outside all day and I get a lot of exercise, too. I don't really like the uniform, but we have to wear it.

(8)

The best thing about my job is the contact with people. Everyone is different and I have to find different ways to help each individual. The work is hard and I have to take a lot of it home with me, but that's okay. The biggest problem is some of the parents, to be honest. They expect too much, which is bad, or don't care, which is terrible!

(9)

I love working with people so my job is perfect for me. I really enjoy travelling and visiting new places. I am not shy – I don't mind talking in public, so the work is easy. It can be difficult to work with large groups and some people are unfriendly but most are kind.

My job is a dream come true for me. I love meeting ordinary people and listening to their problems and ideas. Of course, I also have to do a lot of office work, but I don't mind. My door is always open to members of the public. It's important to me to know that I can make a difference to society.
