

Adding Integers

To add integers with **like signs**, **add** the numbers & keep the sign.

$5 + 7 =$

$-2 + (-5) =$

$1 + 5 =$

$-3 + (-8) =$

$3 + 4 =$

$-7 + (-6) =$

$2 + 6 =$

$-5 + (-3) =$

$-9 + (-2) =$

$8 + 4 =$

$-4 + (-6) =$

$-2 + (-8) =$

To add integers with **different signs**, **subtract** the numbers & use the sign of the larger number.

$-6 + 3 =$

$-2 + 7 =$

$-9 + 4 =$

$-8 + 1 =$

$7 + (-7) =$

$-3 + 6 =$

$5 + (-7) =$

$-4 + 6 =$

$7 + (-1) =$

$8 + (-3) =$

$1 + (-9) =$

$6 + (-9) =$

$-7 + 3 =$

$4 + (-2) =$

$8 + (-4) =$

$-5 + 9 =$

$-9 + 7 =$

$1 + (-5) =$
