A musical genius

Mozart was an Austrian composer. He was a musical genius. When he was 3 years old he learned to play the piano. At the age of 4 he learned to play the violin. He also started to compose music.

When he was 5 years old he learned to play the organ. A year later Mozart could play three musical instruments! He played them so well that he started to give concerts. His father took him to many European cities.

At the age of 8 Mozart wrote his first symphony. When he was 13 years old he became a concertmaster.

Mozart was also good at other things. He was good at Maths and Geography. And he learned about 15 languages because he travelled so much.

Mozart was only 35 when he died. Some people think that he was poisoned by Antonio Salieri, but scientists say it is not true.
