# Should Ads be Banned from TV Program?

Match the appropriate section of the Hortatory Exposition Text based on its structure.

**Argument 3**

For these reasons, I think TV stations should stop showing ads. They interrupt our shows, they influence us in a bad way, and they sometimes cause our favorite shows to get canceled. I'm tired of ads, so I mostly watch movies in the cinema now.

**Thesis Statement**

Last, ads affect the programs people watch. Popular shows have a lot of ads because many people watch them. But other shows, even if they're someone's favorite, might get canceled because they don't attract enough ads.

**Argument 2**

I am writing to complain about the excessive number of ads on TV, especially during my favorite shows. I believe they should be stopped for a few reasons.

**Recommendation**

First, ads are really annoying. They go on for a long time, and there are so many of them. Sometimes it feels like there are more ads than actual shows.

**Argument 1**

Second, ads have a negative influence on people. They try to make us buy unhealthy things like beer, soda, candy, and chips. In other words, they make us want things we don't really need and can't afford.
