# Summarize

Read the story. Write a summary that tells the important information.

Dan and Carlos took Dan's new puppy, Rex, to the park. First Rex barked at the ducks on the pond. The ducks did not seem to mind. Then Rex tried to eat the food that people were feeding the birds. The birds did not seem to mind, but the people did.

Next, Rex saw two children playing with a ball. He wanted to play, too. He jumped up and pulled the leash right out of Dan's hands. Dan and Carlos chased him all around. At last they got him and gave the ball back to the children.

Dan said, "Rex will have to learn some lessons before we bring him to the park again!"
