

THEATRES IN LATE VICTORIAN AGE

New theatres were built
in London and in other
cities during the

Various improvements
made the theatres more
.....

New methods of lighting
the stage were capable
of producing more
..... effects.

The developments in stage
techniques meant that
theatre productions were far
more

When was
introduced in theatres, it
greatly affected how
performances were staged.

Going to the theatre
became as
as the play people were
going to see.

The types of theatrical performances which flourished in the
Victorian era were
