

# IEP Cristo Milagroso

## Examen de Computación

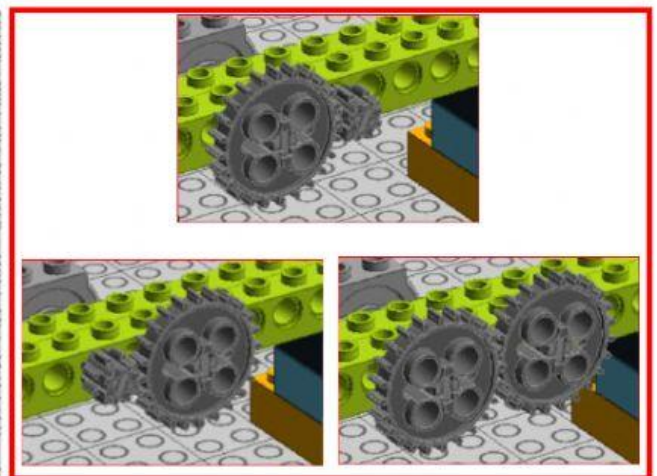

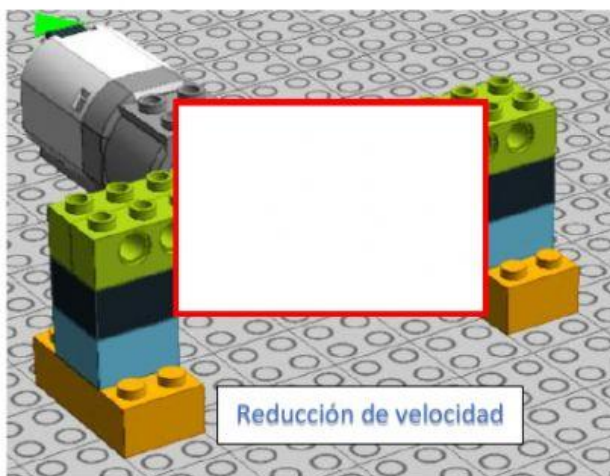

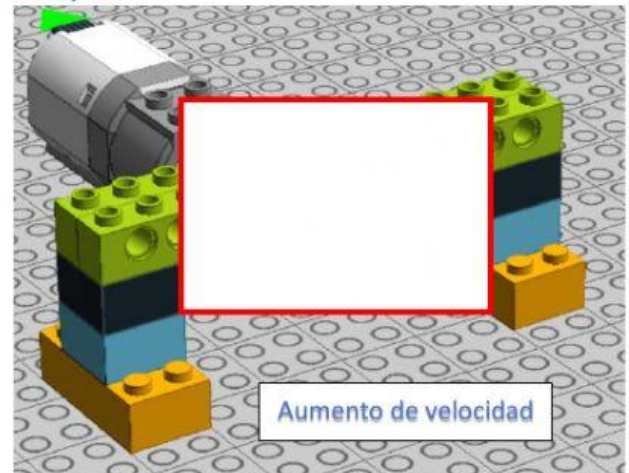

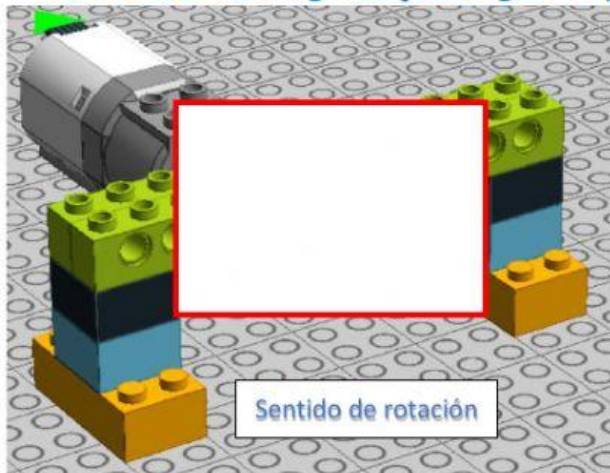

1. Selecciona el nombre de los bloques

|                                                                                     |                                                                                     |                                                                                      |                                                                                       |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
|    |    |    |    |
|                                                                                     |                                                                                     |                                                                                      |                                                                                       |
|    |    |    |    |
|                                                                                     |                                                                                     |                                                                                      |                                                                                       |
|  |  |  |  |
|                                                                                     |                                                                                     |                                                                                      |                                                                                       |

2. Mira las figuras y selecciona que principio de palanca se uso

|                                                                                     |                                                                                     |                                                                                       |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
|  |  |  |
|                                                                                     |                                                                                     |                                                                                       |

### 3. Coloca los engranajes según el principio

### 4. Observa la imagen a que principio de polea pertenece
