3. Realiza las siguientes divisiones.

Diagram illustrating a sparse matrix structure with 7 columns and 3 rows. The columns are labeled 7, 2, 6, and 3. The matrix is divided into four blocks by horizontal and vertical lines. The first block is a 3x3 matrix of blue squares. The second block is a 3x3 matrix of blue squares. The third block is a 3x3 matrix of blue squares. The fourth block is a 3x3 matrix of blue squares. The matrix is sparse, with many zero entries.

-

A 3D coordinate system with three axes labeled 6, 7, and 5. The 6-axis has three blue squares, the 7-axis has two, and the 5-axis has one. Red minus signs are on the axes.
