

Watch the episode and fill out the gaps

1. All these ancient skulls have straight teeth.
2. They also had jaws and teeth overall.
3. Over the course of several thousand years it became for people to process and refine their food.
4. And then wisdom teeth, which are usually the last to make their debut, seem to only complicate the things
5. As people's diets have become chewy, their jaws have gotten.....
6. Some people never have wisdom teeth.
