

Name: _____ Date: _____

Instructions: Model equivalent fractions for $\frac{1}{2}$ by using a sheet of paper and following the following steps below.

Step #1

Fold the sheet of paper into two equal parts, open the paper and count the parts.

Then, write $\frac{1}{2}$ on each part. Students will fill out the statement:

There are ____ equal parts. Each part is ____ of the paper.

Step #2

Fold the paper in half **two (2)** times. Open the paper and complete the statement.

There are ____ equal parts. Each part is ____ of the paper.

Students will write $\frac{1}{4}$ on each of the fourths. Students will look at $\frac{1}{2}$ parts and the $\frac{1}{4}$ parts and complete the equivalent fraction. $\frac{1}{2} = \frac{\text{yellow box}}{4}$

2 4

Step #3

Fold the paper in half **three (3)** times and complete the statement.

There are ____ equal parts. Each part is ____ of the paper.

List the fractions that are equivalent to $\frac{1}{2}$ on your paper are:

_____, and _____ are equivalent to $\frac{1}{2}$
