

Last night, I was **taking / making** a walk along **the sea** / **the river**
And I saw **him / her** together with a **young girl** / **young boy**
And **the book / the look** that he **give** / **gave** her made **me** / **my** shiver
'Cause **she / he** always used **to look at me / took at me** that way
Then I **thought / tough** maybe I should walk right up **to here / to her**
and say "Ah-ha-ha, **it's a game / it's a guy** he **like / likes** to play"

Look into **his / her** angel eyes
One / Juan look and **you're / your** hypnotized
He'll take **you're hurt / your heart** and you must pay **the price / the praise**
Look into **her / his** angel eyes
You'll think you're **on / in** paradise
And **one / two** day you'll find out he **wears / wear** a disguise
Don't look too **deep / dip** into **these / those** angel eyes
