## shark tales

Sharks are fish who live in the ocean. Sharks have lived on earth since before the dinosaurs!

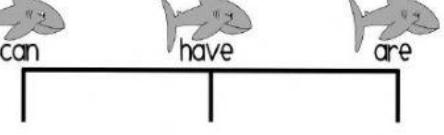

Most sharks are carnivores, or meat eaters. They eat fish, and sea mammals like seals, and dolphins.

Some sharks are scary and dangerous, but some are nice and gentle. These are the largest sharks.

Sharks have very sharp teeth and they loose them up to 7 times a year! They have over 30,000 teeth in their life. Sharks can't stop swimming or they will sink.
