Describe a game or sport you enjoy playing

I've played several games, both indoor and _____.¹
Out of these games, I enjoy playing chess more than the others. Chess is an indoor game where two _____² participate. This game does not involve any major physical _____³ like other outdoor games, but a chess player has to use his or her brain to win.

I mostly play this game with my friends and cousins. Sometimes I play it with my father. Since playing chess only needs a _____⁴ and chess pieces, you can play chess almost _____⁵. I usually play it at home. I enjoy this game because you have to use your _____⁶.

This game gives you a feeling of being in _____⁷ because only you decide how to move the pieces. This is a very interesting and enjoyable game to me for all of these reasons.
