

SCIENCE

1 Write the name of the senses.

2 Select the correct option.

• What is the main function of the sense of taste?

- a) Identify different flavors
- b) Distinguish different sounds
- c) identify the shape and size of objects

• What is the main function of the sense of hearing?

- a) move, walk, jump
- b) Distinguish different sounds
- c) identify the shape and size of objects

• What is the main function of the sense of sight?

- a) move, walk, jump
- b) Distinguish different sounds
- c) identify the shape and size of objects

• Which of these options is part of the ear?

- a) eardrum
- b) eyelashes
- c) tongue

3 Label the parts of the eye. Drag and drop.

EYEBROW

EYELASHES

PUPIL

IRIS

EYELID

4 Read and write the corresponding flavor (sour -sweet-bitter-salty)

Popcorn - _____

Lemon - _____

Broccoli - _____

Ice cream - _____

5 Match the correct option.

- This part controls voluntary actions. a) cerebellum
- This part controls our coordination and balance. b) cerebrum
- This part controls involuntary actions. c) brain stem
- Which of these is not a part of the nervous system? d) heart

6 Identify the texture of the following objects. Match. Hard – soft – hot – cold.

Rock

Hard

Pillow

Cold

Soup

Soft

Ice cream

Hot

7 Classify the food according to their food group. Drag and drop. Pay attention to the numbers.

1 fish	1 strawberry	1 oil	1 cheese	1 cereal
2 milk	2 avocado	2 chicken	2 grains	2 banana

Proteins	Fruits	Dairy	Carbohydrates	Fats

8 Match to make true sentences.
