

Academic IELTS > Opinion Essay – Unemployment (vocabulary)

This is an opinion (personal viewpoint) essay since it asks how far you agree with an idea. You should introduce the topic and give your opinion in the introduction. Then, explain why you have this view and consider the opposing view. Next, restate your opinion in the conclusion. This task has an extra element, which sometimes happens in Task 2: **it asks you to suggest some other challenges also**. You should combine these ideas in the main body of the essay, as in the example below.

'Unemployment remains the biggest challenge to school-leavers in most countries'
How far do you agree with this assessment? What other challenges face young people today?

Choose the word that fits each blank properly from the word box below each paragraph.
