

A cartoon illustration of a man with black hair and glasses, wearing a white shirt and black pants, riding a red scooter. A small dog is sitting in the sidecar, wearing sunglasses and a blue vest. The background is a solid yellow color.

Convertir: 9/12

The figure consists of two identical coordinate systems side-by-side, each with a yellow background and a black grid. The left graph shows the function $f(x) = 1 - 2x$ for $x \in [-1, 1]$. The function is represented by a red line segment starting at $(-1, 3)$ and ending at $(1, -1)$. The right graph shows the function $f(x) = 1 - 2x$ for $x \in [-2, 2]$. The function is represented by a red line segment starting at $(-2, 5)$ and ending at $(2, -3)$.

Convertir: $5/12$

MULTIPLICAR Y DIVIDIR POR 10, 100 Y 1000

Dividir de manera abreviada:

[illegible]

Al dividir entre 10, 100 o 1000 debes correr la coma hacia la izquierda y aumentar ceros si es necesario.

Multiplicar de manera abreviada:

Al multiplicar entre 10, 100 o 1000 debes correr la coma hacia la derecha y aumentar ceros si es necesario.

[illegible]
