1. Vocabulary, Homework R

Now match.

They have long teeth, and they live in oceans all over the world. We don't know how many there are.

They have a population of more than 100,000, and they live on islands in the Pacific Ocean. They're orange and brown.

They have big eyes and brown fur. They live in Southeast Asia, but we don't know their population.

Now match animals with information about them.

They have big eyes and brown fur. They live in Southeast Asia, but we don't know their population.

They have long teeth, and they live in oceans all over the world. We don't know how many there are.

They have black and white fur. They have a population of between 10,000 and 25,000, and you can find them in Tasmania.

They have gray fur, and they live on volcanoes in Mexico. They have a population of between 2,000 and 12,000.

They have a population of more than 100,000, and they live on islands in the Pacific Ocean. They're orange and brown.

1. Vocabulary, Homework R

Choose.

Example:

- 1 tarsiers Tasmanian devils

- 2 angler fish coconut crabs

- 3 tarsiers volcano rabbits

- 4 coconut crabs tarsiers

- 5 tarsiers volcano rabbits
