

Learning Target: I will be able to describe and identify the differences between seed producing and non-seed producing plants.

Classifying Plants

Instructions: Complete the following flow chart using the words and characteristics in the table below.

Mosses	Dandelion	Yellow flowers	Vascular (root system)
Nonvascular	Produce seeds in pinecone	White seeds with parachutes	Produce spores
Native to Georgia	Produce spores	Ferns	Needles stay green
Seed producing	Have to live in environment	Pine cone tree	No root system
Vascular (root system)	Vascular (root system)	Grow in damp, shady places
