- d) Who is the father of Peter? _____
- e) Who is thirty-nine years old in 1995? _____
- f) Who is Judy's aunt? _____
- g) Who is older than her brother? _____
- h) Who is the youngest character in the story? _____

ACTIVITY 2: Nine things are wrong in the following summary. Rewrite the sentence with the correct information.

In the year 1868 in a small town in New England, USA, three young brothers buy a dangerous game. The game is called Jumanji, and they bury it in a hole under some trees. The boys are very afraid. "Somebody could find it", says the older boy. "Then God help them!" says his younger brother.

Somebody does find the game fifty years later! And with the second throw of the dice, something unusual happens. But this is just the beginning.

Twenty-five years later, somebody must finish the game! And when two children - Peter and Jane - find the Jumanji box, strange things start to happen again.

ACTIVITY 3: Are the sentences **TRUE** or **FALSE**?

- a) In 1995, Alan Parrish is forty years old. _____
- b) The Parrish family own a factory which makes shoes. _____
- c) Alan Parrish gives away special shoes called "Jumanjis". _____
- d) Jim and Martha Shepherd know all about the Jumanji game. _____
- e) Sarah doesn't want Jim to work in the shoe factory. _____
- f) Sam Parrish dies at the end of the story. _____
- g) 1995 is a very good year for the shoe factory. _____
- h) Alan and Sarah change the future. _____
