READING AND COMPREHENSION

1. Read and check the main idea for each text.

a. 3D Printers Star Trek (1966)

Star Trek, is the science fiction film seen in 1966, the evolution of 3D printers has led to that for a few years has been able to use these devices to create food and food. What many do not remember is that this innovative technological advance was already advanced by the crew of the Enterprise.

Half a century ago, this space series already used a device called "replicator", with which the travelers synthesized water, food and other edible elements.

- 1- Sci-fi literature is fascinating because of real inventions.
- 2- Some inventions predicted in sci-fi have become real.
- 3- Imagination is the bridge between material and science.

b. Tablets 2001

I did a homework of history that my teacher sent me. I found something interesting about the tablets that you are inspired by the movie "A Space Odyssey".

In this science fiction film was made in 1968, where two astronauts used this device to watch movies, news or read.

- 1- Film exhibited in 1968.
- 2- Film of science fiction made in 1969.
- 3- Imagination is the bridge between science and real.

c. Virtual Reality (VR)

This technology is present in Back to the Future and in many other movies such as Matrix, Virtual World or The Lawnmower.

Virtual reality is not only used for video games, but also for educational, therapeutic and even for sex purposes. In The Demolisher (1993) anticipate this possible application of technology, as seen in the scene starring Sandra Bullock and Sylvester Stallone.

- 1.- Virtual reality is used for educational and therapeutic purposes.
- 2.- Virtual reality is used for educational, therapeutic and recreational purposes.
- 3.- Virtual reality is used for educational, therapeutic and sex purposes.

d. Flexible screen

The science fiction film "Red Planet" exhibited in 2000, the public was amazed to see that the screens were able to roll up and be easily stored. This is already available.

- 1.- Easy to roll up. 2.- Easy to put it.
- 3.- Easy to remove.
