

Practicemos las tablas

• Tabla del 2

$2 \times 1 = \square$

$2 \times 2 = \square$

$2 \times 3 = \square$

$2 \times 4 = \square$

$2 \times 5 = \square$

$2 \times 6 = \square$

$2 \times 7 = \square$

$2 \times 8 = \square$

$2 \times 9 = \square$

• Tabla del 3

$3 \times 1 = \square$

$3 \times 2 = \square$

$3 \times 3 = \square$

$3 \times 4 = \square$

$3 \times 5 = \square$

$3 \times 6 = \square$

$3 \times 7 = \square$

$3 \times 8 = \square$

$3 \times 9 = \square$

Practicemos las tablas

• Tabla del 4

$4 \times 1 = \square$

$4 \times 2 = \square$

$4 \times 3 = \square$

$4 \times 4 = \square$

$4 \times 5 = \square$

$4 \times 6 = \square$

$4 \times 7 = \square$

$4 \times 8 = \square$

$4 \times 9 = \square$

• Tabla del 5

$5 \times 1 = \square$

$5 \times 2 = \square$

$5 \times 3 = \square$

$5 \times 4 = \square$

$5 \times 5 = \square$

$5 \times 6 = \square$

$5 \times 7 = \square$

$5 \times 8 = \square$

$5 \times 9 = \square$

Practiquemos las tablas

• Tabla del 6

$6 \times 1 = \square$

$6 \times 2 = \square$

$6 \times 3 = \square$

$6 \times 4 = \square$

$6 \times 5 = \square$

$6 \times 6 = \square$

$6 \times 7 = \square$

$6 \times 8 = \square$

$6 \times 9 = \square$

• Tabla del 7

$7 \times 1 = \square$

$7 \times 2 = \square$

$7 \times 3 = \square$

$7 \times 4 = \square$

$7 \times 5 = \square$

$7 \times 6 = \square$

$7 \times 7 = \square$

$7 \times 8 = \square$

$7 \times 9 = \square$

Practicemos las tablas

• Tabla del 8

$8 \times 1 = \square$

$8 \times 2 = \square$

$8 \times 3 = \square$

$8 \times 4 = \square$

$8 \times 5 = \square$

$8 \times 6 = \square$

$8 \times 7 = \square$

$8 \times 8 = \square$

$8 \times 9 = \square$

• Tabla del 9

$9 \times 1 = \square$

$9 \times 2 = \square$

$9 \times 3 = \square$

$9 \times 4 = \square$

$9 \times 5 = \square$

$9 \times 6 = \square$

$9 \times 7 = \square$

$9 \times 8 = \square$

$9 \times 9 = \square$
