GRAMMAR

FIRST CONDITIONAL

The first conditional is a structure used for talking about possibilities in the present or in the future.

There are 2 clauses:

- **If clause**

If + subject + verb in the present tense

- **Main clause**

   Subject + will + verb

examples:

- If the weather is nice, we'll go swimming.
- If you study hard, you will pass the test.

WRITE

1. Complete the following sentences using first conditional with the words in the chart:

Might become	Will revolutionize	Can enhance	Take over

1) If artificial intelligence continues to advance, it _____ various industries.

2) In the future, if robots _____ more tasks, human jobs _____ scarce.

3) If machine learning algorithms are well-designed, they _____ decision-making processes.

2. Rewrite the following sentences in your notebook using the first conditional:

a). The development of AI is leading to significant changes in healthcare.

_____

b). Chatbots are becoming more common in customer service.

_____

c). AI is playing a crucial role in data analysis and providing valuable insights.

_____

If I had a human sense of time, I might be late for virtual meetings too!

SECOND CONDITIONAL

The second conditional expresses unreal situations in the present or future.
A second conditional sentence consists of two clauses, an "if" clause and a main clause.

- **If Clause**
If + subject + verb in the past simple tense

- **main clause**
Subject + would + verb

ex: If I had a million pounds, I would buy a big yacht.
