Oh, I know a sound, it's "qu," "qu," "qu,"  
Like in "queen" and "quick," it's true!  
When you see "qu," make the /kw/ sound,  
Let's practice together, let's get loud!

Now, let's move on to the "oa" sound,  
It's like in "boat" and "coat," all around.  
When you see "oa," make the /əʊ/ sound,  
Let's say the words, let's go all around!

Now, let's combine the sounds we've learned,  
"Qu" and "oa," together they'll churn.  
In words like "quote" and "float," we find,  
The sounds we've practiced, they're all aligned!

The queen arrives in the palace every morning at a quarter past nine.  
The queen arrived late, at a quarter past eight.  
As the clock struck a quarter to twelve, the queen arrived for the official ceremony.  
As tradition says, the queen arrives at the annual ball at a quarter to midnight.
