

Put the tenses in the correct form. Past simple or Present perfect

Person A: Hey, have you ever worked with machine learning algorithms?

Person B: Yes, I worked (work) on a project last year that involved (involve) machine learning. I developed (develop) a recommendation system for an e-commerce website.

Person A: That sounds interesting! Did you use (you/use) any specific programming languages or libraries?

Person B: Absolutely, I used (use) Python and TensorFlow. I attended (attend) a machine learning workshop a couple of years ago, and since then, I improved (improve) my skills.

Person A: Wow, I'm impressed. Did you participate (you/participate) in any hackathons recently?

Person B: Yes, last month I took part (take part) in a hackathon focused on cybersecurity. My team and I developed (develop) a tool that detects (detect) potential vulnerabilities in web applications.

Person A: That's really cool. Did you ever face (you/ever) any major challenges during these projects?

Person B: Oh, definitely. While working on the recommendation system, I encountered (encounter) some data preprocessing issues that required (require) a lot of time to solve. Also, in the hackathon, we struggled (struggle) with integrating different APIs.

Person A: It sounds like you gained (gain) a lot of experience. What's your next programming goal?

Person B: I am always (always/be) fascinated by artificial intelligence, so my goal is to dive deeper into natural language processing. I started (already/start) taking an online course to expand my knowledge.

Person A: Best of luck with your studies! I'm sure you will achieve (achieve) great things in the field of AI.

Person B: Thanks! I'm excited to see where my programming journey will take (take) me in the future.
