LABEL TEXT

Questions:

1. What do you see in the pictures?
2. What are written on those packages?
3. Why does a manufacturer write those texts?

Di dalam gambar tersebut adalah bungkus dari beberapa produk. Di bungkus produk-produk tersebut atau di dalam bungkus produk tersebut biasanya akan dituliskan sebuah teks yang berisi informasi rinci dari produk yang biasanya kita sebut sebagai **LABEL**.

1. Definition of label

A label is a piece of paper, plastic film, cloth, metal, or other material affixed to a container or product, on which is written or printed information or symbols about the product or item. Information printed directly on a container or article can also be considered labeling. Product labels can be made from a variety of materials. Common materials include: paper or cardboard (often attached with plastic, twine or metal staples), cloth, metal (often aluminum), and plastic. Dari definisi di atas kita bisa menyimpulkan bahwa **Label** adalah teks yang dituliskan di bungkus produk, atau diselipkan di dalam bungkus produk, atau ditempelkan di produk untuk memberikan informasi rinci dari produk tersebut.
