BIOLOGY WORKSHEET

Name:

Grade:

Date :

Points:

NUTRION IN PLANTS

Compare between light reactions and dark reactions :

Inside the thylakoid

Water molecule splits into hydrogen
and oxygen

Water has no role

ATP . NADPH

in the stroma

Light provides energy in this reaction

Light is not necessary in this reaction

Organic materials like carbohydrates

	Light reactions	Dark reactions
Location		
Light role		
Water role		
Products
