

"Our Obstacle Course" - Reading Comprehension

Our obstacle course

We've got an obstacle course at school. It's fun! There are six obstacles. First, you go around the cones. Second, you jump in and out of the hoops. Then you crawl under the stick. Next, you run around the circle and sit inside with your classmates. After that, you jump over the rope. And finally, you walk under the stick. The last one is very hard because you have to bend over backwards!
