

ACTIVITY THREE: Write the names from the box in the correct group.

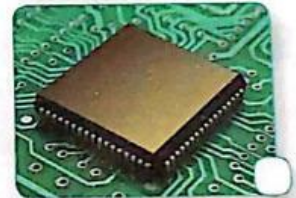

capacitors - electric system - analog meters - red test lead - magnetic fields - displays
measurement units - external electric motor - semiconductor device - oscilloscope

ACTIVITY FOUR: Match the ideas to the pictures. Write a letter next to the picture.

- a) Light bulbs are illumination devices.
- b) Diodes are semiconductor devices.
- c) Test leads are part of digital multimeters.
- d) A silicon chip is a very small device but a complete electronic circuit.

ACTIVITY FIVE: Match the words to make sentences from this table.

1. A battery
2. Wires
3. Fuses and diodes
4. A wire stripper
5. An electric current
6. Electric charges
7. Rubber and plastic
8. A multimeter
9. Volts and amperes
10. A chip
