Big letters or small letters?

OK. This one isn't particularly useful for email addresses, but it is really useful for passwords (think about when you're asking that busy waiter for the cafe's Wi-Fi password). Most emails are written in lower case, but if we want to check that we can ask:

"Lower case or upper case?"
"That's all lower case, right?"
"Any capitals?"
"Any upper-case letters?"
