### Tourism Studies

#### The Reasons for travel

**Produce a scenario** - Think of why people would choose to come to The Bahamas

OR travel to and from different islands in The Bahamas. Using four of the reasons for travel that we just discussed:

★ **Produce a scenario about a guest's/s travels which include:**

- a) Where they are coming from.....
- b) Where the visitor is travelling to.....
- c) The name at least one activity they would take part in that lines up with their reason for travel.....

★ **Additionally, state:**

- d) Which type of tourist they are.....
- e) And give them a classification.....

★ **After producing each scenario list:**

The reason for travel: \_\_\_\_\_

The type of tourist they are: \_\_\_\_\_

The classification they fall under: \_\_\_\_\_

**E.g. Jeff and Lisa travelled from Nassau to Bimini to participate in a Blue marlin fishing tournament. They stayed in Bimini for three days before returning home.**

The reason for travel: Leisure/Recreational

The type of tourist they are: Domestic Tourist

The classification they fall under: Stopover/Overnight Tourist
